

IN THE SPECIFICATION

Applicants note that the table presented as paragraph [0134] of published application 20040059051 corresponding with the present application contains an error. The first line of Table 4 corresponding with PU (6) states that the carboxyl group-containing compound is "DMBA". Table 4 of the present specification correctly identifies this as "DMPA".

Applicants request that this information be correctly published in any patent issuing from the present application.
